

Wait Til You See My Smile

Alicia Keys

When the wind is blowing in your face
sometimes in life you don't see straight
Pray to him
He will show When your head is in a certain place
Nobody around to make you safe
Stand strong and you will growooooooooooooo
wait till you see my smile
oooooooooooooooooooo
wait till they see your smile don't they love to see you down
kick you while you are on the ground
don't let emotions show mmmmmmm, people always speculate
don't let them get in your way
see they say things they don't know
singoooooooooooooooooooo
wait till you see my smile
oooooooooooooooooooo
wait till they see your smile Hey
So your doing better now
Everybody comes around
but you don't really need 'em
'Cause your stronger and your better and you're ready for whatever
Singoooooooooooooooooooo
wait till you see my smile
oooooooooooooooooooo
wait till they see your smile ooooooooooooooooooooo
wait till you see my smile
oooooooooooooooooooo
wait till they see your smile, smile
