December Snow

The Moody Blues

Like December snow
That lays in the wood
You're gone too soon
I knew you should

With October skies
You brought your love
But November came
Taking all I have and
Time, take this sadness from me
Time, bring my heart back safely
Hold on to warm September
'Cause life can be like December snow

With your touch of love
in this Autumn world
The Sun was bright
The songs were heard

And maybe fools like me
Are under your spell
But with leaves that fall
I hear you callin'

Time, take this sadness from me
Time, bring my heart back safely
Hold on to warm September
'Cause life can be like December Snow

Time, take this sadness from me
Time, bring my heart back safely
Hold on to warm September
'Cause life can be like December Snow
