

# Far From Grace

## D-Side

If you should fall  
If you should fall  
Far from grace If you should call on him  
Wake up to the music again  
You can feel sunlight  
In your eyes Living is so useless 'round here  
The city's so dangerous  
On your own  
How beauty dies young But if you should fall  
Oh, if you should flow  
From grace  
How beauty, beauty fades If you should fold  
If you should fail  
Far from grace  
Far from grace Oh, oh beauty  
You could know
