Get A Little High

Robbie Williams

Wake up in the middle of
In the thunder of a scream
And you realize that it was yours
You don't know what to tell them
'Cause you don't know where you've been
And you've been there so many times beforeIt's only natural to feel like you're sinking
It's only human to be so unpreparedDon't worry baby, if you get a little high
It's just a phase to get you through getting by
So you get a little restless and you get a little wasted
It's just a little lite entertainment
Embrace it, it might just save your lifeYou always say you're sorry
But you never know what for
And it's been happening more and more
Act your age and not your shoe size
And blah blah blah blah blah
That's your role model slam the doorSo it's only natural to feel the guilt of a nation
It's only human when you're young you're gonna cryDon't worry baby, if you get a little high
It's just a phase to get you through getting by
So you get a little restless and you get a little wasted
It's just a little lite entertainment
Embrace it, it might just save your lifeSo where else can you go to
'Cause no one's given you the book
About what to say and how to feel and what you
Should and shouldn't have tookIt's feelings that you fearing that's why
You step outside your mind
Don't look back 'cause if you don't crack
You get to sing this lullaby
You get to sing this lullabyDon't worry baby, if you get a little high
It's just a phase to get you through getting by
So you get a little restless and you get a little wasted
It's just a little lite entertainment
Embrace itDon't worry baby, if you get a little high
It's just a phase to get you through getting by
You do lots of complaining and do nothing to change it
Well that's a little light entertainment
Embrace it, it just might save your life
Or it just might change your life
