Take Cover

Greensky Bluegrass

I don't know what I'm sittin' here to doin'
Askin' for change, who do I think I'm foolin'
Clock's hand keeps spinnin', time, it keeps on movin'
Rubber bands around my hands bring me back to beginDarkness is new, who has a lightbulb
Hide in the corners now, is anybody listenin'
My shoes are tied together, could you loan me a dime
Must have a shelter to find your restCus it's rainin' this evenin'
My heart is reelin'
With questions and feelin'
It's time to take coverThe kindlin's wet but the fire's still burnin'
Teapot's a-boilin', and it's not whistlin'
My cup is empty, still flowin' over
Radio is singing and shouting out weather
While out of time, forced in the woods now
No room to breath, and you can't see me
Who am I, what I've been
Knowing it's you I'm the last thing on your mindCus it's rainin' this evenin'
My heart is reelin'
With questions and feelin'
It's time to take coverThe fuse is lit and the bomb's not tickin'
I'm on the run, just slowly movin'
What has become of your decision
Release the hounds to sniff out the oppositionHole in the boat, it's not sinkin'
Raise a flag, except the gails won't listen
Batten down the hatches, bet I'll call your mother
Pop the bottle that was meant for Christmas
Cus it's rainin' this evenin'
My heart is reelin'
With questions and feelin'
It's time to take coverIt's time to take cover
It's time to take cover
