

# Era La Musica

## Rbd

It was the first day  
And the first day I saw you  
Never really thought  
That you would be the one to make the skies turn blue  
It was amazing  
The way that you captured me  
It turned me hard  
And made me feel that we can be so easily  
How enchanting as we're dancing  
My life began to change  
Now I don't know what to control  
But all that I could say was  
Era la musica that made me run to you  
Era la musica that made my dreams come true  
Era la musica, as we danced the night away  
Era la musica that made me love you  
So exciting  
How did I find someone like you?  
Someone that made me feel  
That love was really enough so true  
It was incredible  
The way that this came to be  
He took my hand and then began  
To take a hold of me  
How enchanting as we're dancing  
My life began to change  
Now I don't know what to control  
  
But all that I could say was  
Era la musica that made me run to you  
Era la musica that made my dreams come true  
Era la musica, as we danced the night away  
Era la musica that made me love you  
It was the music that made me love you  
The way you move takes my breath away  
The way you dance girl is like no other  
Was it the music that made me stay?  
Stay with me girl, I'll show you where we can go  
Far away to a place only love goes

Yo no se lo que me esta pasando  
A ti te sigo amando  
How enchanting as we're dancing  
My life began to change  
Now I know what to control  
But all that I could say was  
Era la musica that made me run to you  
Era la musica that made my dreams come true  
Era la musica, as we danced the night away  
Era la musica that made me love you  
Era la musica that made me run to you  
Era la musica that made my dreams come true  
Era la musica, as we danced the night away  
Era la musica that made me love you
