

The Good and the Bad

The New F-O's

my life I think back about all the good the bad
I might get right up in the back and everything

seems like its all good when it's bad, good when it's bad, I couldn't imagine. by the way that you move like I
couldn't imagine every day something new now I couldn't imagine
I hit the stage and I groove like I couldn't imagine (couldn't imagine)

couldn't imagine how I feel when the music hits the feel of the way that we go good feel life real with the life
family soul with the flow style they should know now they should know I tap the breaks on the old sound. bring
the moe's out bring the hoe's too it's getting loose in the zone if we can show you

now see where it's going now I'm ready to go while the scene still flowing I'm letting them know.
No just know that I know the past is the past and I'm hoping we go past to present we could open it up and if the
a.d.d won't let us focus enough then we'll say

my life I think back about all the good the bad
I might get right up in the back and everything

seems like its all good when it's bad, good when it's bad, I couldn't imagine. by the way that you move like I
couldn't imagine every day something new now I couldn't imagine
I hit the stage and I groove like I couldn't imagine (couldn't imagine)

couldn't imagine kinda had to do a lot a things on my own and if I didn't then would've I ever grown into the
person I feel that I am today I really feel that I've been blessed this special way I know that everything's not
good and I know if I could change it I would and I can feel it in the air tonight the good and the bad I don't care
tonight

my life I think back about all the good the bad
I might get right up in the back and everything

seems like its all good when it's bad, good when it's bad, I couldn't imagine. by the way that you move like I
couldn't imagine every day something new now I couldn't imagine
I hit the stage and I groove like I couldn't imagine (couldn't imagine)

couldn't imagine, that I'm still in a place that we don't wanna go home on a never ending race to the job of my
own in my property zone I feel the pressure at hand I'm living properly so I just examine the plan and what the
song said or what it should say maybe I'm a hard head listen to the hood quake anything that I got anything that
I had is everything that I'm not and everything I am. kick it on a good day until the man come what I would say
maybe if I had some it's not a sad song it's only real life interpretations on the mic is what I feel like.

my life I think back about all the good the bad
I might get right up in the back and everything

seems like its all good when it's bad, good when it's bad, I couldn't imagine. by the way that you move like I

couldn't imagine every day something new now I couldn't imagine
I hit the stage and I groove like I couldn't imagine (couldn't imagine)
