Forever Friends

Jon Gibson

I knew you when I was just a little baby
Cried at night my mother held me tight as could be
Watched me growing from a little boy
Youâ€™ve been the only one who understood my pain, my joy
You knew me then,
We are forever friends

Questing on the long and unseen trail I crossed
What seemed an endless sea with trouble on my sail
Iâ€™ve come so far and yet I donâ€™t know how
All I know is that you were with me then as you are now
Weâ€™ve always been
We are forever friends

As the memories of the past grow old
I see the mystery of my life beginning to unfold
Painful times I thought would never end
But you always seemed to pull me through my darkest hour
Time and time again
We are forever friends

Take me on an endless journey
Far beyond this troubled world
Rest me on the furlough of your love
Waiting for that day of glory
On the hour that you return
This is really all that I believe
Forever friends

(Sax Solo â€“ Dougg Webb)

Mmmm Oh Lord
Weâ€™ve always been forever friends
I knew you were then eh, we are forever friends
Weâ€™ve always been friends
Oh Lord
And I knew you then my Lord
Alright, alright mmm
And I always knewâ€¦ we were
Oohhh Lord we are we are

And I always knew it
Forever friends
Forever, forever, forever, forever,
forever, forever, forever
Always been forever friends, mmm
Forever friends
I knew you then
We are forever friends
