

# Erase/Replace

## Foo Fighters

Attention, pay attention  
No mention, a sickest array  
A mission, an admission  
Ignition, detonate Oh no, don't talk about it  
No please, don't talk about it  
Oh no, don't talk about it  
Not one more word about it Oh no, don't think about it  
No please, don't think about it  
Oh please, don't think about it  
It goes away We made these promises  
You made these promises  
Erase, replace  
Erase, replace We'll make more promises  
We'll wait for promises  
Erase, replace  
Erase, replace A vision, division  
Revision, cognate  
An action, a reaction  
Distraction, question the fate Oh no, don't talk about it  
No please, don't talk about it  
Oh no, don't talk about it  
It goes away We made these promises  
You made these promises  
Erase, replace  
Erase, replace We'll make more promises  
We'll wait for promises  
Erase, replace  
Erase, replace Oh, are we better off now?  
It's the only thing left said  
Meant for you Oh, are we better off now?  
It's the only thing left said  
Meant for you We'll make these promises  
We'll make these promises  
Erase, replace  
Erase, replace We'll make more promises  
We'll wait for promises  
Erase, replace  
Erase, replace Erase, replace  
Erase, replace
