Shut Me Out

Matrimony

You know me
why you wanna cut me out?
I used to always come around
now it doesn't feel righttime changed me
you pretend that all is right
every time you come by
when we gonna set it right?oh, you know you shut me out
oh, you shut, you know you shut me out
oh, you know you shut me out
oh, you shut, you know you shut me outunbind me
now I have to go my way
I feel the weight of all those days
now you've gotta live your lifebut I know you
I know you're laying on the ground
when will you turn it all around
if you don't even try?oh, you know you shut me out
oh, you shut, you know you shut me outwhy you wanna keep going down that road,
crawling in the dark, no lamp, no light?
tried to lead you there, tried to bring you home
why you wanna take, take me for a ride?why you wanna keep going down that road,
crawling in the dark, no lamp, no light?
tried to lead you there, tried to bring you home
why you wanna take, take me for a ride?
why you wanna take, take me for a ride?oh, you shut me out
oh, you shut, you know you shut me out
oh, you shut me out
oh, you shut, you know you shut me out(why you wanna keep going down that road?)
