

# Rival The Eminent (feat. Lawrence Arnell)

## Jedi Mind Tricks

Listen y'all do not want beef  
I will eighy-six a pussy La Couspaude  
I ain't talking to this [?] if im not gon beef  
If i take an L, I take an L and that's on me, you see  
I waited all day, mama gravy made  
And if the bitch behave herself, I'll take her down to Katie Spade  
You disrespect me, I Glock a pussy like Flavor Flav  
The Ghost Rider, the coat rider, the [?]  
And you don't want an issue with the kings  
Cause motherfuckers walk around with pistols in their jeans  
It ain't always as superficial as it seems  
Cause we had a little issue that was ripping at the seams  
But now we back again on a Stoupe track again  
Heavenly divine when I told you about the Vatican  
We smoking wakata sippin' on the yak again  
Edwin died so we had to get up out the trap again  
Time travelin' swords rattle we cry battle  
Jackets is full metal we be throwin' em at you  
Build you a shrine have your people make you a statue  
That's what happens when disaster comes natural Either we shoot the guns or we shoot the five  
But either way you shootin with Vinnie is choosin suicide  
I ain't tryna fuck around with y'all or catch a 2-5  
But I ain't gon' let you disrespect me you will lose your lives (you motherfuckers will die)  
C'mon why you tryna compete dude?  
Break your fuckin' neck now your only option to eat soup  
Chop the mafucker up  
I don't need a complete loop  
Me and stoupe just needed a couple minutes to recupe'  
And I ain't got the whole entire fam in yet  
There's a bunch of shit that i ain't got my hand in yet  
Listen, you can't even walk that shit  
You got jewels i will make you come up off that shit stupid  
I ain't made haj yet, but imma do it soon  
Momma still crack me in the head with a wooden spoon  
C'mon dummy why you do that for?  
I'm the hack saw, crack y'all 2x4 yeah  
Time travelin' swords rattle we cry battle  
Jackets is full metal we be throwin' em at you  
Build you a shrine have your people make you a statue

Thats what happens when disaster comes natural
