

Major Barbara

Aerosmith

Major....

Major barbara sits in the feilds
And waits for her crops to grow
She sits in a chair, that she made outta wood

So many many years ago
Major why won't they grow
You give 'em water and hope
Major why won't they grow
She waits all day,
And hopes through the night
For a new day that might show

A bright yellow sun
That'll make the crops come
And let the old days go
Major why won't they grow
You give 'em water and hope
Major why won't they grow

Major
Look out in your feild
Tell me, what do you see shinin' through?

Major
Look after your fields
And your field will look after you

Yes they do
Yes they do
Yea yea yea
Major why won't they grow
You give 'em water and hope
Major why won't they grow
