

One on One Fun

Tamar Braxton

You came and scoop me with that coupe I thought I was bulletproof
Didn't know I boss a harbor, then again it's you
We in a billion dollar club, it's not a fault, it's the truth
I can be anywhere, but I just wanna be right here with you
All of my diamonds are here upon this was a keeper
You want your lemon juice, and I just wanna get between
Blow my mind, that's what I want you to do (That's what I want you to do)
One on one fun
One on one fun
I need that, one on one fun
One on one fun
One on one fun
One on one fun
I need that, one on one fun
When we're in public, that just makes me wanna be alone with you
Won't you come play me, it's enough
You feel it too
Ain't got no problem when the stereo makes me wanna break the rules
I'm showing our hearts baby, I'm your supergirl, and you're the truth
All of my diamonds are here upon this was a keeper
You want your lemon juice, and I just wanna get between
Blow my mind, that's what I want you to do (That's what I want you to do)
One on one fun
One on one fun
I need that, one on one fun
One on one fun
One on one fun
One on one fun
I need that, one on one fun
One on one fun...
