

Tell Me What You Need

Alex Clare

[Verse 1]

Tell me what you need
From the signs I can not read
Something's wrong
How can we move on?
You're not a heartbreaker
But you're making my world quake
You earthshaker[Pre-Chorus 1]
Gotta dig deep
Cause your mind is crazy and I can't sleep
Can not sleep

[Chorus 1]

Open your mouth, I can read your mind
Speak to me, give me a sign
Won't you just, won't you just...
Open your mouth, I can read your mind
I can read your mind[Verse 2]
You used to talk all the time
Share your thoughts, [?] the [?]
Something's changed
Now you're acting strange
I know that you care
When I speak, just sit and stare[Pre-Chorus 2]
I gotta dig deep
Cause your mind's running wild and, and I can't sleep
Can not sleep[Chorus 2]
Open your mouth, I can read your mind
No, you don't have to walk away
Said you never would
I never hear a word you say
Don't speak when you should
Speak to me, tell me what you need
Won't you just...
Open your mouth, I can read your mind
I can read your mind[Bridge]
And I sleep, oh
I can read your mind
And I sleep[Chorus 2]
Open your mouth, I can read your mind

No, you don't have to walk away
Said you never would
I never hear a word you say
Don't speak when you should
Speak to me, tell me what you need
Won't you just...
Open your mouth, I can read your mind
I can read your mind
