

Eggplant

Blaze Ya Dead Homie

Scarlet your eyes, cover your face
If I could dance or stay in this place
I would be king and you would be mine
I would be day and you would be timeEggplant and caviar for you
For you, for you, for you
Eggplant and caviar for youHold up my wings 'cause you are the sky
Paint me by numbers and don't ask me why
I am in bloom and you are perfume
And you are perfume and you areEggplant and caviar for you
For you, for you, for you
Eggplant and caviar for you
For you, for you, for youApple pie or apple seed all the mouths that I must feed
Cold sheets or tumble weed all the ones that I must needI would be king and you would be mine
I would be nine and you would be Mother TimeEggplant and caviar for you
For you, for you, for you
Eggplant and caviar for you
For you, for you, for youApple pie or apple seed all the mouths that I must feed
Cold sheets or tumble weed all the ones that I must need
All the ones that I must need, all the ones that I must need
All the ones that I must need, all the ones that I must need
