

# Blackout

## Pheromone

I tell you once  
I will not repeat again  
These Devil's cards...  
I don't want to continue game Shine...  
You rose to shine  
Bright...  
Like a star in the skies  
I...  
Has fell to bring  
A night...  
I'm here - just close your eyes So you built my soul  
And broke the borders  
And pour the light But despite of your cries  
I am the mirror of night  
In your eyes
