

All for You

[Tony Bennett](#)

When you turned around and looked into my eyes
It was just the moment when I realized
That my life had just begun
And my past faded away
All I do is hope and pray
That our love will always stay Now my world is so alive
My dreams came true
You're the spirit that i need
It's all from you Every moment that I live my whole life through
Now I'll look into your eyes and live for you Now my world is so alive
My dreams came true
You're the spirit that I need
It's all from you Every moment that I'll live my whole life through
Now I'll look into your eyes and live for you All for you When I've looked into your eyes
