Ride the Storm (Radio Edit)

Simon Webbe

I wanna learn how to surf, you know
Up and beyond, I wanna know how to fly, you know, touch the sky
Thats how I feel baby, when you're with meI can rip through my shirt, you know
Go berserk
Miles through the sky, I can jump real high
And thats how I feel baby, when you're with meOoooh, fire in the sky
Ooooh, watch me riseCHORUS
I hear you call
You won't see me fall
When I ride the storm (ride the storm)--guitar solo--I wanna learn how to surf, you know
Up and beyond, I wanna know how to fly, you know, touch the sky
Thats how I feel baby, when you're with meOoooh, fire in the sky
Ooooh, watch me riseCHORUS
I hear you call
You won't see me fall
When I ride the storm (ride the storm)I'm your rebel, hero, your thief of hearts
You're my light when I'm in the dark
Thats how I feel baby, when you're with meCHORUS
I hear you call
You won't see me fall
When I ride the storm (ride the storm)
