GOLEO VI PRES. LUMIDEE VS. FATMAN SCOOP

Working 5 days a week
Feels like you're life is a waste
You're like a fugitive
You dream of running away
Tonight the city lights are shining
The atmosphere out there is changing
We're gonna cross the line
And never come back again, again, again

Gotta dance tonight
Just to save our lives
Gotta dance the pain away
Gotta dance all night
Just to stay alive
Gotta dance the pain away

Monday comes a headache
And hole in your heart
You wake up from your dreams
Don't even know who you are
You're tired that you're always hurting
The fire in you're eyes are burning
Come on let's cross the line
And never come back again, again, again, again
Again, again, again, again

Gotta dance tonight
Just to save our lives
Gotta dance the pain away
Gotta dance all night
Just to stay alive
Gotta dance the pain away

Dance
D-d-d-dance
Dance the pain away
D-d-d-d-d-dance
Dance, dance, dance, dance
Dance

Gotta dance tonight
Just to save our lives
Gotta dance the pain away
Gotta dance all night
Just to stay alive
Gotta dance the pain away
