

Hit It Again (feat. Queen Latifah)

Luther Vandross

Well, by now you know I'm insatiable
'Cause when you step to leave I want a full repeat, yeah
It's a miracle, you were right inside my head
If the feeling's nice, why not do it twice? It is not against the law, no, baby
I slave all through the week and I need my release
I work hard so when I stop
I gotta get a little satisfaction for me Hit it again, don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again, I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby Deep emotion ain't got nothing to do with it
And being in love ain't really got a thing to do with it
I hope you understand but I can't worry if you don't, oh, no
If I can't double up, it's like I didn't get enough Call me greedy if you want, just do it
But it's something that will never change
I don't get no complaints, they know it when they ring my bell
That this could be a thing that could take a little while, well, well Hit it again, don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again, I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby I declare the point to be
Once is not enough for me
Two time lovin' makes me smile
One time love just ain't my style Repeat the love and I have found
More the second time around
It builds me up I love to love
And if I can't hit it again, it ain't natural Hit it again, don't care if I'm late
The world just has to wait
Hit it again, hit it again, baby
Hit it again, I loved it the first time
Sent chills up through my spine
Hit it again, hit it again, baby
