My Christmas Song

Zanny

Snow is falling
Do you hear those winter bells
Ringing in this winter storm
The road is calling
Almost like a breeze itself
It somehow leaves me warm
Sing I'm listening
And I'll try to sing along
Take it in
Take it in
And sing your Christmas song
The world is changing
Everything is painted white and red
Oh
The Stars are dangling
Above our head
But that's just it
These wishes are getting old
So sing
I'm listening
And I'll try to sing along
Take it in
Take it in
And sing your Christmas song
What do you do
What do you do
You don't understand anymore
Anymore
You are not alone
Sing
I'm listening
And I'll try to sing along
Take it in
Take it in
Because this is my Christmas song
