

I Wanna Roo You (Scottish Derivative)

Van Morrison

Twenty-third of December
Covered in snow
You in the kitchen
With the lights way down low
I'm in the parlor playing my old guitar
Speaking to you, darling, to find out how you are
I want to roo you, want to get through to you
I want to woo you, woo you tonight
I want to roo you, want to get through to you
I want to woo you, woo you tonight Come to me softly
Come to me quiet
Know what I'm after
I'm gonna try it
Snowstorm's on the way and we'll be stranded for a week
Come over to the window, look outside take a peek
I want to roo you, want to get through to you
I want to woo you, woo you tonight
I want to roo you, want to get through to you
I want to woo you, woo you tonight You know I am lonely
And in need of your company
Oh, let your love light shine on down on me And we can just sit here
Look at the fire
Watch the flames leaping higher and higher
Tea on the stove food in the pan
Ain't going nowhere and we don't have many plans
I want to roo you, want to get through to you
I want to woo you, woo you tonight
I want to roo you, want to get through to you
I want to woo you, woo you tonight
