

# Take Me to Heaven

## BMX Bandits

Take me, take me to heaven  
Up to the mountains into quiet blue grass gardens  
Take me, lets leave together  
Lost in the moonlight in the land of perfect dreams  
Hold me, hold me forever  
I'll close my eyes to see if memories reappear  
Longing, longing for those nights when starlight was bright under the great velvet sky  
Take me in your arms,  
hold me  
Dont ever leave me never will I be the same again  
Take me just for one moment  
Just one more time in your arms close to your heart  
Hold me ever so tightly  
I close my eyes but the memories disappeared  
Longing, longing for those nights when starlight was bright under the great velvet sky  
Starbright, when starlight was brighter  
Starlight was bright under the great velvet sky
