In the Night

Triumph

In the night, in the darkness
Love can grow or love will die
Such a strange situation
Thought I heard somebody cryI found love, inspiration
We had time so much to share
Came the night, came the darkness
I reached out and she wasn't thereThere's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?There's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?
Can't you hear?So much pain, persecution
Disillusion and despair
I think I need some consolation
I think I need, think I need someone to careAll my dreams are gone forever
I feel them fade and drift away
Now I cry, cry, cry in the darkness
Can't you hear what I'm tryin' to say?There's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?There's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?
Can't you hear?You tell yourself, don't be lonely, don't be scared
And everything will be alright
But the darkness comes and then you hear
All those voices in the night, in the nightA time will come when you are lonely
When you get scared and too weak to fight
Then you will cry, cry, cry in the darkness
And you'll be just another voice out in the nightThere's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?There's a voice in the night
Cryin' in the night
Can't you hear it?
Can't you hear it?There's a voice cryin' in the night

There's a voice cryin' in the night
In the night, in the night
