

# Living In Darkness

## Agent Orange

Look at me now, I've got no reason  
To be like everybody else  
So dumb so happy  
I like things that bite Things that creep at night  
Everybody's asking me what it's like down there  
The concrete floor is cold  
The walls are bare I feel safest being alone  
Living in darkness  
Living in a world of my own I'm so selfish doing everything by myself, I feel so cold  
I wanna live to be a couple thousand years old  
Ashes to ashes, dust to dust  
I thought I knew somebody that I could trust  
Now, I'm not so sure I feel safest being alone  
Living in darkness  
Living in a world of my own One whole lifetime I'm never gonna last  
Unless I live until dying is a thing of the past  
And all these girls I know, out turning boys into men  
I know I am never going down again, never again I feel safest being alone  
Living in darkness  
Living in a world of my own
