

Hole in My Heart

Burton Gaar

it's hard to believe but back then we made love every night
but the road she was on took a left and mine took a right
i said baby don't worry i know things are gonna work out
but then she sad I'm sorry, goodbye i had my doubts

she left a hole in my heart
bigger than the Robert E Lee
then she just sailed away
right down to New Orleans
she left a hole in my heart
even a blind man could see
then she took every thing but my love
her memory and me

give it to me
(solo)

you know the harder i tried the further she seemed to move
in different directions from the one i figured she'd choose
now that she's gone it seems i prayed quite a lot
just giving thanks for this band new love i've got

she left a hole in my heart
bigger than the Robert E Lee
then she just sailed away
right down to New Orleans
she left a hole in my heart
even a blind man could see
then she took every thing but my love
her memory and me

she took every thing but my love
her memory and me
she took every thing but my love
her memory and me
