

# Too Perverted

## Jeru the Damaja

Ain't nothin' worse than a wack MC  
Unfortunately that's all that surrounds me  
So I come to crush the unstable structure  
It's the return of the dopest Brooklyn motherfuckerTo ever ignite the mic, get it right  
Mad respect, pimps, grap your hoes, punks, grab your checks  
What's next, pure nonsense and the style ya flex  
And you're so bloody pussy, you need a KotexLatex because they're drippin' vaginal juices  
So many so called gangsta niggas and their booty producers  
Now watch the act that's vanishin'  
Gold and platinum but who gets the publishin'  
Not to rub it in, drop it in your box, now your dubbin' My company fucked up my projects momentum  
But I'm still winnin' 'cause I'm a winner  
Came to the table with snakes they had snakes on they're plates  
Plus' niggas on they're plates, they put figures in my plate I took the loot unscathed 'cause I couldn't dine wit  
'em  
See 17, age 19 [Incomprehensible]  
On a podium, at this time you are rewinding'  
And like solar and lunar, you're clockin', it's too perverted It's too perverted, you heard it So deep that it  
becomes fossilized  
Too many times I find my style between MC's inside  
[Incomprehensible] but they swallow their tongues like seizures  
I pierce flesh and strike nerves like acupuncture Or acupressure, feel the wrath of my mathematics  
Kinetics, you need a local anesthetic  
'Cause your system has acquired an immune deficiency  
Overwhelmed by my telepathy, no sympathy Cursed [Incomprehensible] but graceful like calligraphy  
And [Incomprehensible] like [Incomprehensible] was not to MC  
Life givin', yet I'm still deadly  
And before you step to me, remember it's too perverted It's too perverted  
It's too perverted, you heard it  
It's too perverted  
It's too perverted, you heard it Master rhymin' so I'm steadily climbin'  
I rip through mics like when my dick strikes the hymen  
Total controller, some claim to be bolder  
But they rotate around the lunar, I keep it solar, polar Who vibrates and radiates  
Thunder, lightning, earthquakes from North to South  
East to West test the best get sprayed  
Drop jewels, burn papes, till my ride escapes  
Awkward flow to some it's even unorthodox Bone crushin', life threatnin' like the jaws of a crocodile  
Your hunny wishes to stay a while

And I told her she could stay, am I foul or just too perverted?
