

Bad Luck

Harold Melvin

Uh

Woo

Well, well Look down-hearted and confused

Because lately you've been startin' to lose

Losin' out on everything you might try to do

Bad luck's there, it's got a hold on you Losing money, `bout to lose your home

Done lost your woman and everything you own

Law of averages plainly states that chances go around

But if you want know the truth about it and tell you what's pullin' you down, yeah (You got) Bad luck

That's what you got, that's what you got (Yes, uh)

Bad luck

That's what you got, that's what you got

Bad luck

That's what you got, that's what you got (You got)

Bad luck, bad luck (Bad) Played a number `cause that number's hot stuff

But the bookies get you for every cent you've got

Walk around in a daze with your pockets bare

Go to see your woman and she ain't even there Don't seem to give a whiz about it and all your trapped in time???

The more I think about it, I think you're `bout to lose your mind

Some people call it jinxed, some say it ain't my day, huh

But if you want to know the truth about it and tell you what's pullin' you way down Bad luck

That's what you got, that's what you got (Yes, uh)

Bad luck

That's what you got, that's what you got (You got)

Bad luck

That's what you got, that's what you got (You got)

Bad luck, bad luck (Bad, bad, bad, bad, bad, bad) One long week

Ooh, huh

Yeah, yeah

One more thing Law of averages plainly states that chances go around

But if you want to know the truth about it and tell you what's pullin' you down

Down, down, down, down, down Bad luck (Yes, uh)
