

# I don't wanna stop

## Jamai

A one way street that never ends  
No roundabouts or sudden bends  
My head arrives in a please that's new  
    But my heart is still with you  
    But my heart is still with you  
A crowed room or an empty space  
    Thoughts of you I can't erase  
    The answer is I can't go back  
'Cause you don't wanna feel like that  
    And I don't wanna feel like that  
        But somethings  
        Are worthwhile fighting for  
        And baby, I just can't let you go  
        And I don't wanna stop  
        And I don't wanna quit  
And I don't wanna end this thing with you  
    'Cause I just wanna start  
    And never wanna stop this thing  
I got with you 'cause I, I never wanna stop  
    Yeah, I never wanna stop  
    Lovers drown or drift away  
    The colors fade and turn to Grey  
    Lets draw the line and face the fact  
    That we don't wanna be like that  
    'Cause we don't wanna be like that  
        You're one thing  
        That's worthwhile fighting for  
        And baby, I just can't let you go  
        And I just wanna breathe  
        And I just wanna live  
        Without you next to me  
    'Cause I just need to know  
        Come on, let me know  
        Is it real or is it not?  
If it's true then, baby, I don't wanna stop  
    I don't wanna stop
