

Tremble

[Mindy McCready](#)

It's like you're holding my heart in your hands
And for a moment I can't breath
More now forever there in your eyes
Oh the way you move me, I can't help it I tremble, every time that we touch
It's a shock to my soul, I'm shaking all over
Baby, it's just too much
'Cause your kiss always leaves me like this
I have no defenses, lost all control
Something about your love
Makes me tremble, oh, I tremble Baby, for the first time, I'm so completely lost
Somehow I'm right where I belong
Feel you like sunlight rushing through my veins
No one else could ever make me feel this way I tremble, every time that we touch
It's a shock to my soul, I'm shaking all over
Baby, it's just too much
'Cause your kiss always leaves me like this
I have no defenses, lost all control
Something about your love makes me tremble I'm falling apart here in your arms
'Cause I need you, look at me, baby
I just can't help it, I love you Oh, your kiss always leaves me like this
I have no defenses, lost all control
Something about your love makes me tremble
Oh, I tremble, oh, I tremble
