Bessy's Last Journey

Spiderbait

Everybody needs a holiday
Everybody wants to get away
Don't you want a week of Saturdays?
Everybody needs a holidayGive yourself a break from every day
Take your troubles, pack them right away
It's so easy just to sail away
Everybody needs a holidayIt's a pretty day to get away
Such a pretty day to get away
Everybody needs a holidayTake a trip out to the Milky Way
Stay inside and order takeaway
Don't you know the way to San Jose?
Everybody needs a holiday
