

# Bessy's Last Journey

## Spiderbait

Everybody needs a holiday  
Everybody wants to get away  
Don't you want a week of Saturdays?  
Everybody needs a holiday Give yourself a break from every day  
Take your troubles, pack them right away  
It's so easy just to sail away  
Everybody needs a holiday It's a pretty day to get away  
Such a pretty day to get away  
Everybody needs a holiday Take a trip out to the Milky Way  
Stay inside and order takeaway  
Don't you know the way to San Jose?  
Everybody needs a holiday
