I Got Nothin' Left

Celine Dion

Anybody ever tell you that you're not whole
Hollow shell of man without soul
Never ever felt your warmth cause you're always cold
Only thing that makes sense is letting goAnybody ever tell you that you've got known
Treatin' my love like just another word
Tired of giving love to you that you don't deserve
So this is one way of saying it's overCause I got nothin' left
I got nothin' left, I got nothin' left
I gave you my best and you treated it worthless
So I got nothin' leftAnybody ever tell you that you're gonna learn
Trust and respect are two things you must earn
When it came to lovin' me you just weren't concerned
You never gave a damn so I guess now it's my turnCause I got nothin' left
I got nothin' left, I got nothin' left
I gave you my best and you treated it worthless
So I got nothin' leftSo done with you
Maybe we're through
So done with youCause I got nothin' left
I got nothin' left, I got nothin' left
I got nothin' left, I got nothin' left
I gave you my best and you treated it worthless
So I got nothin' leftSo done with you
Maybe we're through
So done with you
