Now That It's Over

Hyper Static Union

I've been fightin' the good fight
I got the enemy in my sights
And I will never give up until it's over
Ain't gonna see me runnin'
Ain't gonna see me fallin' back
'cause I will never give up until it's over
I've been fightin the good fight
I got the enemy in my sights
And I will never give up until it's over(Chorus:)
I fight the good fight, no I can't be deceived
I'd take a bullet for what I believe
No single weapon formed against me will stand
Victory is ours, only One is in command
He's in commandI've been fightin the good fight
I got the enemy in my sights
And I will never give up until it's over
You might see me cryin
But you ain't gonna see me fallin back
'cause I will never give up until it's over, no, no(Chorus 2x)
