

Get This Worm Out in My Head

Ben Kenobi

Ahh ahh ahh ouch
Ahh ahh ahh ouch
Get this worm out in my head

I don't feel right
Sleep tight and wake bright
Get this worm or shoot my head

**

Stay with me Lady Jane
Don't let this feeling fade away
Please be with me

Lay me down before I lose it all, as my memory sways
Now it's all simple under your care so long
Let me in to the thought you believe, as my brain reels
When one more false alarm rings, we'll leave here

Stay with me Lady Jane
Don't let this feeling fade away
Please don't leave me
