

# Somewhere Not Here

## Alpha

I remember when you came  
I can just recall that day  
Unexpected, undetected  
If I'd have known, I still would have done it  
So little time, so long to wait  
A paradise, within your eyes  
All the things I could tell you  
All the things I could show you  
You're my waking thought  
You're the smile on my lips  
I dream, I see your face  
I see and dream of you  
You were safe and warm  
I was in your hands  
We were moved in time  
To another space  
Somewhere, not here  
Somewhere, not here  
So, little time  
So, little time  
You were safe and warm  
I was in your hands  
We were moved in time  
To another space  
A thousand miles away  
I'd like to fly to you  
I immerse myself  
I dream, I see your face  
I see, I dream of you  
If you were here we'd watch  
If you were here we'd see  
You're my waking thought  
You're the smile on my lips  
You were safe and warm  
I was in your hands  
We were moved in time  
To another space  
Somewhere, not here  
I know you are somewhere, not here  
You're my waking thought  
You're the smile on my lips  
Are you thinking of me?  
Do I invade your sleep?  
A paradise, a paradise  
Within your eyes  
I remember when you came  
I can just recall that day  
Somewhere not here  
Somewhere not here  
Somewhere
