## **Picture Show**

## **John Prine**

A young man from a small town

With a very large imagination

Lay alone in his room with his radio on

Looking for another station

When the static from the mouthpiece

Gave way to the sound belowJames Dean went out to Hollywood

And put his picture in a Picture Show

James Dean went out to Hollywood

And put his picture in a Picture ShowAnd It's, oh, daddy get off of your knees

Mama, why'd you have to go

Your darling Jim is out on a limb

I put my picture in a Picture Show

Whoa, ho, put my picture in a Picture ShowHamburgers, cheeseburgers

Wilbur and Orville Wright

John Garfield in the afternoon

Montgomery Clift at nightWhen the static hit the mouthpiece

Gave way to the sound below

James Dean went out to Hollywood

And put his picture in a Picture ShowAnd It's, oh, daddy get off of your knees

Mama why'd you have to go

Your darling Jim is out on a limb

I put my picture in a Picture Show

Whoa, ho, put my picture in a Picture ShowA Mocca man in a Wigwam sitting on a reservation With a big black hole in the belly of his soul

Waiting on an explanation

While the white man sits on his fat can

And takes pictures of the NavajoEvery time he clicks his Kodak pics

He steals a little bit of soul

Every time he clicks his Kodak pics

He steals a little bit of soulAnd It's, oh, daddy get off of your knees

Mama, why'd you have to go

Your darling Jim is out on a limb

I put my picture in a Picture Show

Whoa, ho, put my picture in a Picture Show

Ya, ha, put my picture in a Picture Show

Here we goA young man from a small town

With a very large imagination
