High Atop the Silver Branches

Elf Power

I'd really like to be there
I'd really like to climb
high atop the silver branches
far away fromanother misty morning
another stormy night
another way to pass the day
oh please god, I'll be niceI'd really like to be
underneath the sea
far away from tv shows
and the big old highwaysreally like to fly
up into the sky
far away from radios
that say 'I love you'all the crap around me
made me open wide
take a deep old breath
it's got to last a long, long timeand you're sinking on down
and then you're floating by
once you've gone you don't come back
you won't even ask whyI'd really like to be
underneath the sea
far away from tv shows
and the big old highwaysreally like to fly
up into the sky
far away from radios
that say 'I love you'
