Trust

Pete Murray

I sit so alone in a room
Bright light on my face
Interrogation consists of two
Questions of my faith
Come on, baby, come on, shake me
You won't leave me alone
Come on, make me, come on, break me
I won't take it at home
I fall back onto the floor
Bright light on my face
Constriction consists when I breathe
From losing my space
Come on, baby, come on, shake me
You won't leave me alone
Come on, make me, come on, break me
I won't take it at home
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
You don't trust me, trust me
Trust me, trust me
You don't trust me, trust me
Come on, baby, come on, shake me
You won't leave me alone
Come on, make me, come on, break me
I won't take it at home
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
And it's been so long
Since I heard you say
You don't trust me, trust me
Trust me, trust me
You don't trust me, trust me
