

# Trust

Pete Murray

I sit so alone in a room  
Bright light on my face  
Interrogation consists of two  
Questions of my faith  
Come on, baby, come on, shake me  
You won't leave me alone  
Come on, make me, come on, break me  
I won't take it at home  
I fall back onto the floor  
Bright light on my face  
Constriction consists when I breathe  
From losing my space  
Come on, baby, come on, shake me  
You won't leave me alone  
Come on, make me, come on, break me  
I won't take it at home  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
You don't trust me, trust me  
Trust me, trust me  
You don't trust me, trust me  
Come on, baby, come on, shake me  
You won't leave me alone  
Come on, make me, come on, break me  
I won't take it at home  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
And it's been so long  
Since I heard you say  
You don't trust me, trust me  
Trust me, trust me  
You don't trust me, trust me
