

Celebration

Wet Wet Wet

Well, a modern love is a funny thing
It's full of diamonds and a pretty ring
But it's gonna get me, it's gonna get me
Get me, oh, so down Well, a summer loving, it makes me freeze
It leaves me standing in a cold, cold breeze
So I'm gonna get me, I'm gonna get me
And get me outta town in a strange, strange town Everytime I look into her eyes
They're filled with such emotion
Everytime I look into her eyes
They're filled with such emotion
I don't want to keep on waiting
Starting my own celebration Well, a sisters loving, is a strong, strong thing
It's never ending and I don't need no diamond ring
But it won't leave them, I don't leave them
In a cold, cold times 'Cause everytime I look into her eyes
They're filled with such emotion
Everytime I look into her eyes
They're filled with such emotion
I don't want to keep on waiting
Starting my own celebration These are difficult times
Difficult times times times
These are difficult times
To be celebrating Summer loving, it makes me freeze
It leaves me standing in a cold, cold breeze
So I'm gonna get me, yes, I'm gonna get me
And get me outta town 'Cause everytime I look into her eyes
They're filled with such emotion
Everytime I look into her eyes
They're filled with such emotion
I don't want to keep on waiting
Starting my own celebration
