

# I Will Shelter You

**Bob Carlisle**

I'm in your corner  
Don't worry 'bout a thing  
And if you should ever need  
Some comforting  
I'm as close as the air you breathe  
I'll be the faith you need to believe Put your head on my shoulder  
And rest a little while  
'Cause I'm here to hold you  
When your world turns wild  
That's just what love should do  
When times are tough  
I will pull you through When the hurricane blows  
Against your heart  
And the sky's on fire  
And you don't know where you are  
When you've done all you can do  
And there's no one else to turn to  
I will shelter you It doesn't matter  
What tomorrow brings  
'Cause baby together  
We can weather anything  
When you can't seem to  
Find your way  
I will push back the storm  
I will stop the rain
