Subordinate to the Domination

Pestilence

Anxiety provides the aspect of days
Dislodge and make them disappear
Domination in sadistic ways
All you hear and see is fearInferior to the superior
Restictive ways to live
Enter the lists against the conqueror
Oppression is not destructiveTrapped in prevailing insanity
Vindictive minds in restraint
Fortification of pugnacity
Life in a domainSubordinete to the domination
Life ruled by fear
Subordinate to the domination
Distinction, resist and persevereBeing swayed by agony
Obedience and compulsion
Subordination eternally
Revolt remains an illusionDeprived latitude and domination
Turned up in implacability
Grievous visions and confusion
Belief in vanishing disparity
