Priceless

Frankie J

Listen, I'm the kind of man
Who really doesn't take the time to understand
That what I did was wrong
But girl, you forced my hand
And now girl, look at me
Got people sayin' I'm not that crazy
Okay, I take it back
Whatever it was I said, oh girl, I take it back
Where in the hell was I
When you started to pack your bags?
Why didn't you talk to me?
What about my letters? Did you ever get 'em?
Still smell your scent all in my bed
I'm at the place where we first met
And I'm sendin' you a ticket
And if you still feel it, meet me there
'Cause when I look at me, I'm like a puzzle
Without the pieces I need, girl, I'm in trouble
I need you to come and save me, oh, I miss my baby
I need you there, say you'll be there
Ride a jet overseas, hotels are on the beach
To be with you again is priceless
Now I'm in the room watchin' the clock every hour
Waitin' to hear from you, I called the airline
They said you'll be landin' soon, so I'm on my way
I got a thousand things in my head I wanna say, girl
I love you and I miss you
Would it be too much if I kiss you?
Baby, let me paint this picture
I ain't shit if I ain't with you
No, no, oh no, oh no, should I listen?
Is that what was missin'? Tell me, baby
Still smell your scent all in my bed
I'm at the place where we first met
I'm sendin' you this ticket
And if you still feel it, meet me there
'Cause when I look at me, I'm like a puzzle
Without the pieces I need, girl, I'm in trouble
I need you to come and save me, oh, I miss my baby

I need you there, say you'll be there
Ride a jet overseas, hotels are on the beach
To be with you again is priceless
I'm at the airport, waitin' on you
Wishin' you show up and I hope you do
If you still believe you're my missin' piece
The guard is tellin' me, man, I gotta leave
I'm at the airport, waitin' on you
Wishin' you show up and I hope you do
If you still believe you're my missin' piece
I know money can buy me anythin', except for you
When I look at me, I'm like a puzzle
Without the pieces I need, girl, I'm in trouble
I need you to come and save me, oh, I miss my baby
I need you there, say you'll be there
Ride a jet overseas, hotels are on the beach
To be with you again is priceless
