

Bad Habits

FIDLAR

Well they say I gotta habit
That I'm just a drug addict
And I'll never be nothing more Well they can just have it
I don't care if I'm damaged
Honestly I just think I'm bored And alcohol is just a flavor
That I wanna try and savor
Every second that I'm on tour I'm gonna do what I want
I don't care if it's not
What you want anymore So now I'm drinkin' Coca-Cola
With some whiskey and a soda
I've been sippin' since 10am And every morning I wake up
I just wanna give up
But I guess I gotta deal with it Oh my god, it's like
BOO-FUCKING-HOO
It's just all about you
And man you're so sensitive
And do you really think that I
Wanna be that guy
That dies without any friends But don't go so sentimental now
I've got my whole life to figure it out
I'm gettin' older and I'm freakin' out
'Cos I got nothing to show
And I'm still fucking broke But I got bad habits
Yeah they're my bad habits
And all I got are bad habits
But they're my bad habits And now I'm one week sober
And I'm still hungover
And maybe I should take a break And I think I need help
'Cos I'm playing with myself
At least three times a day And what's the big-fuckin-deal
If I don't wanna feel
But I got some reservations about rehabilitation 'Cos I drink 'til I'm mad
And I love being sad
OH MY GOD I'M BECOMING MY DADI got bad habits
Yeah they're my bad habits
And all I got are bad habits
But they're my bad habits
And all I got are bad habits
But they're my bad habits

And all I want are bad habits
Yeah my had habits...Every second that
Every second that
I wanna try and
I don't care if it's not care if it's not I wanna try and
I wanna try and
I wanna try and
I wanna try and I don't care if it's not
I don't care if it's not
I don't care if it's not
I don't care if it's not
I don't care if it's not
