

Watch Me Jumpstart

Guided By Voices

Watch me jumpstart as the old skin is peeled
See an opening and bust into the field
Hidden longings no longer concealed Watch me bulldoze every bulldozer away
Each new obstacle from each old new day
Where it's going it's hard for me to say And shoot me down, and bring me down
But I won't be around as you run through the places you love
I remember the faces that cry
And they're pulling me back so I have to die And watch me jumpstart at the first light of day
Each new sensation just blows me away
Don't look now, don't look now, I'm a phase Straight from ground zero, X marks the spot
I can't pretend to be something I'm not
'Cause I'm a supernova erected, white hot And shoot me down, and bring me down
But I won't be around as you run through the places you love
I remember the faces that cry
And they're holding me back so I have to die And watch me jumpstart I'm maximum jack
Shot through the cosmos like an alien attack
Film finished, fade into black
