

# Outlaws

## Alessia Cara

Run, run like the devil's behinds us  
Run to where no one can find us  
Be my accomplice to my crime  
Oh baby  
Run, run 'cause we're guilty as sin  
Run 'cause we know we won't win  
We know together we kill time You'll never face a judge without me  
You'll never battle the gavel alone  
And if they lock us away  
Then I'll be still here  
Proudly waiting to kill more time, with you We'll be outlaws  
We'll take on the world  
We'll be outlaws Run, run like you never did  
'Cause they found the evidence  
And they found your fingerprints  
All on me and baby run  
Run like your life depends on it  
Let's make forever in this moment  
Tell me you love me again, oh again  
And I would waste away without you  
You're the shine into my star  
I'd be searching till I found you  
Wherever you are, you are We'll be outlaws  
Partners in crime  
We'll take on the world together  
I'm Bonnie you can be Clyde  
We'll be outlaws  
You and me  
They'll never understand the honor  
Among these thieves You'll never face a judge without me  
You'll never battle the gavel alone  
And if they lock us away  
Then I'll be still here  
Proudly waiting to kill more time  
With you  
Oh with you  
With you  
With you We'll be outlaws  
Partners in crime

We'd take on the world together  
I'm Bonnie you can be Clyde  
We'll be outlaws  
You and me  
They'll never understand the honor  
Among these thieves  
We'll be outlaws
