

Count on You

The Walls Group

Seasons come and go
People change just as quick as the winds may blow
It seems like the flow
But I refuse to walk that road Days go by
Time moves forward
You have shown me the light
That there is someone who looks out for me
And never leaves my side I know that I can count on You
To be my guide and see me through
Sometimes I stumble
Sometimes I fall
I know I can count on You
Well I have spent my life
Trying to find something to satisfy my soul
But the fact is all that glitters ain't gold
But the value I'll find out to hold, oh So if my friends aren't really for me
I think that I'll be alright
And as long as I've got You, I'm good
There is no substitute for who You are I know that I can count on You
To be my guide and see me through
Sometimes I stumble
Sometimes I fall
But I know I can count on You Well I've never seen the righteous forsaken
Nor the saints go begging for bread
And with that being said
No more searching for me
You've proven to be more than I need
I know that I can count on You
To be my guide and see me through
Sometimes I stumble
Sometimes I fall
I know I can count on You I know that I can count on You (can count on You)
To be my guide and see me through
Sometimes I stumble
Sometimes I fall
I know I can count on You (might lose my way)
But I I know I can count on You (might lose some friends)
But I I know I can count on You (I will, I will)
I will put my trust in You
