

# We're on to Somethin'

Jon Wolfe

Girl it's only been a week  
But I just can't seem to get you off my mind  
I ain't trying to rush  
But I just can't get enough of this you and me time  
I'm thinking windows down  
The Radio up  
Nowhere bound  
You're riding shotgun  
Let's hit the ground running  
We're onto something  
Got a good thing going  
No need for slowing it down  
Let's keep it rolling  
No destination  
But I figured we can figure it out  
Why we hesitating  
Got the whole world waiting  
Baby We can find a place or do a little laying and loving  
We're on to something Yeah we're just getting started  
We Keep it light hearted  
Nah we ain't gotta move too fast  
We can play this thing cool  
To hell with the rules  
Who knows how long it will last  
We Ain't gotta know what  
Ain't gotta know why  
But We owe it to ourselves to try  
Let's hit the ground running  
We're onto something  
Got a good thing going  
No need for slowing it down  
Let's keep it rolling  
No destination  
But I figured we can figure it out  
Why we hesitating  
Got the whole world waiting  
Baby We can find a place or we can do a little laying and loving  
Yeah We're on to something Let's burn a little rubber  
Waste a little gas

Ain't worry bout the future  
Or worry bout the past  
Only time will tell  
But I can't help but think that  
We're on to something  
We're onto something Got a good thing going  
No need for slowing it down  
Let's keep it rolling  
No destination  
But I figured we can figure it out  
Why we hesitating  
Got the whole world waiting  
Baby We can find a place or we can do a little laying and loving  
Yeah We're on to something  
We're on to something
