

Tell Me Why

Jump5

Although I'll never deserve it
I realize that You will give me all of Your love
I couldn't ever return it
I know that I could never give You reason enough Your love came over me
You found the way to my heart Tell me why
What have I done, I got You
Now you'll always be the one
Tell me how
Can this be true, I'm with You
Now I really wanna know
Tell me why Let everyone believe it
I want the world to see the kind of love that we've got
Deep down in me I can feel it
I'm gonna give You all I have and no matter what Your love came over me
You found the way to my heart Tell me why
What have I done, I got You
Now you'll always be the one
Tell me how
Can this be true, I'm with You
Now I really wanna know
Tell me why I'm gonna wait no longer
To show You how I really feel
My love is growing stronger
You're all that I need You are my love for life
Nothing can tear us apart Tell me why
What have I done, I got You
Now you'll always be the one
Tell me how
Can this be true, I'm with You
Now I really wanna know Tell me why
What have I done, I got You
Now you'll always be the one
Tell me how
Can this be true, I'm with You
Now I really wanna know
Tell me why Tell me why
Tell me why
